

Remarks about night walks

1. Walks can be requested for groups. Per two adults at least one copy of Green Island in the Sky should have been bought (copies will be for sale at the walk). There will be no charge for the walk itself. To organise a walk please call or email (07-55454398, jaap@greenislandinthesky.com.au)
2. Walks will only take place if the conditions are suitable and safe. If significant rain is foreseen, I will cancel the walk (decision taken at 6pm at the day of the walk).
3. A negative decision will be announced on the 'Walks and Talks' page of Green Island in the Sky. If you have doubts or need certainty please call around 6pm at the day of the walk on 07-55454398 or 0473-818908.
4. We get together at 7.30 pm at the carpark of Joalah National park, Dapsang Drive (drive into Dapsang Drive and turn left at the intersection) unless arranged differently.
5. The walk is NOT officially a guided walk as defined by law and National Parks. This implicates that you are responsible yourself for what happens during the walk.
6. Please make sure that you have enough light on you to see the track. We prefer rather small lights. Strong lights do NOT help to spot wildlife, but will lead to much disturbance.
7. It is wise to have sturdy, water proof footwear, because the track can be muddy at times.
8. You may use insect repellent against mozzies. I will carry some salt in case we encounter leeches. Yes indeed... we will be in nature.
9. The risk of encountering, let alone 'getting in contact with', dangerous wildlife and plants is highly unlikely, but possible.
10. Disciplined behaviour will reduce any risk and limit the disturbance.
11. The track is short; but we will move slowly and we have to descend and climb the 80 or so steps down to the water fall. Make sure you are capable of doing that. It will take us 90-120 minutes to return. Take water with you please.
12. You can take cameras; I ask you to check with me when (or whether) to use flash light. Tripods are useful as well.
13. Most children at or above primary school age should be capable to do the walk and enjoy it.
